		<hr/> \$70 00

A Memorandum showing the standing of the Poor Farm for the year ending March 1, 1867.

We find the Farm chargeable as follows :

To farm as per invoice of 1866,	\$2,000 00
personal property as per 1866,	1,714 66

To cash due James Emery for services as agent,	250 00
cash paid George Jones for use of pasture,	50 00
	<hr/>
	\$4,014 66

We find the Farm entitled to the following credits :

By farm as per invoice of 1867,	\$2,000 00
personal property as per invoice of 1867,	1,599 96
cash paid into town treasury by agent of poor farm,	409 04
	<hr/>
	\$4,009 00

From which sum of \$4,014 66, which we find the farm chargeable with, deduct the sum of \$4,009 00, it being the amount which we find the farm entitled to, as a credit, and we find the sum of \$5 60 against the farm. The number of paupers supported on the farm the past year is one.

It also appears from the books of the Selectmen, that there has been paid for the support of paupers off of the farm the past year, the sum of \$32 00.

To J. S. Davis, for support of Preston Washington,	\$20 00
E. G. Bailey, for support of self and family,	12 00
	<hr/>
	\$32 00

It is the opinion of the Selectmen that in order to get at the actual cost of supporting the paupers on the farm we should take into consideration the interest on the real and personal property which is \$216 00, add to this \$5 60, balance against the farm, and it would amount to the sum of \$221 66; showing that the actual expense for supporting the pauper is \$221 66.

All of which is respectfully submitted,

E. W. DODGE,	} <i>Selectmen</i>
T. P. JONES,	
GEO. HART,	
	<i>of</i>
	<i>Bradford.</i>

*The town of Bradford in account with Jas. Emery, agent
on poor farm, from Feb. 19, 1866, to Feb. 16, 1867.*

REPORT

OF THE

SUPERINTENDING SCHOOL COMMITTEE.

DISTRICT No. 1.

The Summer term of this school was taught by Miss George B. Howard, an excellent and efficient teacher. The school was small, but well conducted and profitable.

The Winter term was under the direction of Mr. James M. Presby, who gave entire satisfaction.

DISTRICT No. 2.

Both Summer and Winter terms were taught by Miss Lucy J. Andrews. This school was a model of good order and regularity. Teacher and scholars seemed to do their best to make the school what it ought to be, and it was what it ought to be.

DISTRICT No. 4.

A small school, one term of 9 weeks. Mr. Samuel K. Page, teacher. It was his first school and showed some marks of inexperience; yet, with an earnest desire to be useful, he succeeded better than we feared he would.

DISTRICT No. 5.

Summer term was taught by Miss Hellen F. Collins. Winter term by Miss Ella F. Eaton.

DISTRICT No. 6.

Teacher of the Summer term, was Miss Ella Prisby; a young teacher, this being her first term. Yet the school showed the best management and gave the best satisfaction to both parents and pupils.

The Winter term was taught by Miss Ellen M. Eaton, a good teacher, giving good satisfaction, and only lacked a little in discipline. No unusual thing.

DISTRICT No. 7.

A small school of only five scholars. Taught by Miss Prudence Jones.

DISTRICT No. 8.

United with Warner, a large school in the worst possible house.

The Summer term was taught by Miss Emma Brown, a good teacher, and had a profitable school; a trifle deficient in government. The Winter term was taught by Mr. Willis E. Cressy.

DISTRICT No. 10.

One term; was taught by Miss M. C. Bixby.

DISTRICT No. 11.

The Summer term was under the care of Miss Abby M. Johnson. Her first term in a somewhat difficult school, yet she proved herself competent to the task. The Winter school was taught by Miss Georgia B. Howard, with her usual good success.

DISTRICT No. 12.

The Summer term, a union with Newbury, was taught by Miss Ella F. Eaton; and by Miss Lucy A. Gage and Ellen M. Eaton, in the Winter.

The schools of the town, though well conducted and generally successful, are far from the high standard we would like to see. Teachers who are familiar with their text books, are generally deficient in facts and philosophy and history, connected with the various branches, by which to illustrate their subjects and interest their pupils.

There needs to be a change in books. The reading books, though good, are so familiar as to have lost their interest to the scholars. The geographies are too ancient for the times.

All of which is respectfully submitted.

C. R. NICHOLS, Superintending Committee.

Bradford, Feb. 28, 1867.

BRADFORD, N. H., March 1, 1867.

The Superintending Committee of the Union School of Bradford, submit the following report.

The primary department of this school was taught, both Summer and Winter terms, by Miss Mary Ann Johnson. The Summer term was 9 weeks long. The Winter term was 13 weeks long. There were forty-three scholars in summer and 35 in winter.

The school was well conducted, orderly and regular, and recitations generally good, and a reasonable advancement for so young scholars.

The Grammar department was under the instruction of Miss A. L. Cheney, both Summer and Winter. Summer term nine weeks. Winter term 13 weeks. In Summer, there were 35 scholars. In Winter, 48.

With the teacher, as with heaven, order is a first law. Studies and recitations were never so absorbing as that conduct and deportment were neglected; therefore we always found the school-

room quiet, and the scholars attending to their studies, and the school a success.

That the Union School of Bradford has disappointed its friends, there can be no doubt. It does not come up to the standard which they hoped it would. Many supposed that in it their sons could be fitted for college, and their daughters graduate as highly finished and polished as from any seminary in the land. The failure has caused many to say it had been better if the Union School had never been born, and to inquire for the cause of the failure. They ask why we do not have as good schools, as we did under the old system in the old school houses under the old teachers. The reasons of the failure may be various. The first and most important is, "We do not get first class teachers, because we will not pay first class prices for them." The district has made up its mind not to pay more than \$45 per month for its first teacher, and then will complain that the Prudential Committee should have a female teacher and why the Superintending Committee should qualify such. Your committee see no good reason why a lady should not be as well qualified to instruct and to govern a school as a man, and we venture to say that the past two terms of this school have been as well taught and governed as it would have been by any man who could be hired for any sum the district would be willing to give. The simple truth is that the Union School of Bradford does not present attractions enough to keep a good teacher at forty-five dollars per month, when other towns offer one hundred dollars per month, or when less laborious business will pay much better wages. We can have as good teachers as they have in any place only by paying for them.

In the second place, we do not have teachers enough. The idea seems to have prevailed that because this was a Union School, it could be crowded with all the elements of English and classical education. That all the philosophies and sciences, all the modern and ancient languages, living and dead, could be faithfully attended to by two teachers, and we were willing to pay for it all at the enormous expense of \$65 per month. This is simply absurd. In the primary department the last term, there was as many studies as any one teacher could attend to. In the higher department, there were so many, there was only fifteen minutes for each recitation.

Academic Professors require one hour or one and a half hours, and often find this insufficient to do justice to the subject in hand. Yet complaint was made that we did not admit Chemistry, Geometry, Surveying, Latin and Greek into this Winter school. We would, only there was not time to attend to them, and the only regret your committee has, is that he did not make the studies less instead of more. The studies once required were Reading, Writing, Arithmetic, Geography, Grammar, and for a wonder to the natives, the first lessons in Algebra, and the teacher's time was fully occupied. Now we think that in addition to these, we may load the

teacher with all the ologies that poor human nature is subject to.

There is no reason why we may not have as good a school here as is in any place, except it be found in our own parsimony. We need these two departments of schools, and in addition another of higher grade, for which a first class teacher shall be permanently employed.

There is enough money goes out from this district for the education of its scholars, to accomplish all that is desired in this direction. We see no good reason why this money should not be expended here to even better advantage than abroad, and be of more extensive benefit.

All of which is respectfully submitted.

C. R. NICHOLS, Superintending Committee.

	Samuel Sargent,	150 55
	Willard W. Simmons,	50 08
	Outstanding debts estimated at	300 00

Amounting in all to the sum of \$41,655 52

Amount due the town :

Cash in the hands of the Treasurer,	\$4,190 04
Taxes uncollected in the hands of M. W. P. Peasley,	111 06
Stephen Austin,	1,267 48
Due from the U. S. Government,	2,422 00
T. K. West, Jr.,	12 00
L. W. Barnes,	3 00

Amounting to the sum of \$8,005 58

Which being deducted from the above amount of liabilities leaves the town indebted in the sum of \$33,649 94.

The amount of indebtedness as reported last year was \$31,791 14, but there should have been added to this amount \$306 25, it being the balance due on James Emery's note, but was not reported, which added to the amount reported, would make the indebtedness of the town last year, \$32,097 39.

Indebtedness of the town this year,	\$33,649 94
last year,	32,097 39

Which is more than last year by \$1,552 55

E. W. DODGE,	} <i>Selectmen</i>
T. P. JONES,	
H. K. MARTIN.	

of
Bradford.

Your committee find the books and papers of the Selectmen kept in admirable order, their expenditures properly vouched and figures correctly cast.

J. H. AMES, }
J. J. BLAISDELL, } *Auditors.*

	27.	3 days preparing for auditors, 6 00
March	7.	1-2 day correcting check-list, 1 00

Amounting to the sum of

\$78 10

Memorandum showing the standing of the Poor Farm for the year ending March 1, 1868.

We find the farm chargeable as follows :

To farm, as per invoice of 1867,	\$2,000 00
personal property, “	1,599 96
cash paid George Jones for use of pasture,	50 00
amount due agent of farm,	250 00
error in footing the invoice of personal property in 1867,	60 66
	<hr/>
	\$3,960 62

We find the farm entitled to the following credits :

By farm, as per invoice of 1868,	\$2,000 00
personal property, “	1,769 54
cash paid into town treasury by agent of poor farm,	259 63
keeping transient paupers,	13 00
due the farm for breaking roads,	15 12
	<hr/>
	\$4,057 29

From which sum of \$4,057 29, which we find the farm entitled to as a credit, deduct the sum of \$3,960 62, which we find the farm chargeable, and we find the sum of \$96 67 in favor of the farm. The number of paupers supported on the farm the present year is one and one half.

It also appears from the accounts of the Selectmen, that there has been paid for the support of paupers off from the farm the past year, the sum of \$123 95 :

Preston Washington,	20 00
William Warde,	64 65
Mrs. Elizabeth Emerson,	2 00
Abby Peasley and child,	37 25
	<hr/>
	\$123 95

It is the opinion of the Selectmen, that in order to get at the actual cost of supporting the paupers on the farm, we should take into consideration the interest on the real and personal property, which is \$226 24 ; deduct from this \$96 67,

the balance in favor of the farm, it would amount to the sum of \$129 57, showing that the actual cost of supporting the paupers is \$129 57.

All of which is respectfully submitted.

E. W. DODGE,	} <i>Selectmen</i>
T. P. JONES,	
H. K. MARTIN.	
	} <i>of</i>
	} <i>Bradford.</i>

REPORT
OF THE
SUPERINTENDING SCHOOL COMMITTEE,
FOR THE YEAR, ENDING MARCH 10, 1868.

To the Legal Voters of the Town of Bradford, and all others interested in our Common Schools, this Report is respectfully submitted :

Your committee is aware of the fact that we live in an age of progress ; that change is stamped on every thing animate or inanimate ; that the old beaten track pursued in days long past of those who have gone before, is fast giving way to a better order of things connected with Common Schools. Better teachers are procured, school rooms of modern style have taken the places of many of those old antedeluvian relics, inhabited by day with radiant gems of mortality, by night where, perchance, the owl and bat have long held their midnight revels.

Once it was thought that any building might answer for a school room ; while now in most of our districts, good and suitable buildings have either been remodeled from old, or new ones erected. Of the above described, we have only one splendid specimen of the past. For the greatest improvement in school buildings, your committee would with great pleasure refer to Union District No. 8, in Bradford, and No. 17 in Warner, (Melvin's Mills) where a "Model School House" has been erected, which is far superior to any in Bradford or Warner, in its convenience and adaptation to the wants of the school.

There are other districts that would do well to follow the example of this in the erection of suitable buildings in the place of those now occupied, affording little protection from the freezing winds of winter, or the showers of summer.

The efficiency of any system of intellectual education, will, in some measure, depend upon the situation of school rooms, and the ample accommodations afforded for the scholastic exercises and

amusements of the scholars. Every school-house should be erected in an airy situation, (not away down in sleepy hollow,) in town or village, detached from other buildings, with ample area around it, set with trees and flowers.

Both the exterior and interior of the school should be arranged in such a manner as to be conducive to the pleasure, convenience and amusements of the young.

What is Taught in our Common Schools?

The elements of Reading, Arithmetic, Geography, &c., in short, the rudiments of an English education. Before one can be properly installed as teacher, he must show that although he may be qualified by a knowledge of the branches to be taught, he possesses an ability to teach. A lazy, indolent or careless teacher is worse than none. As is the teacher, so is the school; and yet such are often engaged "because they will keep school CHEAP." Though the child may forget rules in Arithmetic or Grammar taught him by his teacher, yet there are other impressions made upon his young mind strong as life—lasting as eternity.

From whence are these? Every parent who sends a child to school, is a teacher in that school, teaching the children of others while his own child is taught by all the rest. It is useless for us to exact it all from the one teacher within the school room. By sending your child to school you may be teaching neatness and order, respect for superiors and courtesy to all.

"Boys should learn those things which they will practice when they become men." Ask yourselves if you are teaching such things in your school as you would have your children practice when they become actors in a more advanced stage in life. How careful of home attractions, how careless of school conveniences. You strew the floors of your homes with toys, cover the walls with paintings, and surround them with beautiful trees, shrubs and flowers, and after so much anxiety and care, will fain send them from your presence into the *great world of school*, while they know nothing outside of home influence, leave them there weeks and months, surrounded by objects repulsive to any refined taste, and never once go to see where they are spending their weary hours, and receiving impressions never to be effaced.

The whole community is represented in our common schools; the high, the low, the rude and the refined. This is the WORLD in-

to which your children must enter when they leave you a little later in life, when a parent's fears will be excited to the utmost for their welfare.

This you can change, if you will, now: then, perhaps, you can not. Then see to it. Will you make the school room pleasant and comfortable, encourage all therein by your presence, or will you not, but neglect your own children, or what is yet worse, teach by your negligence, rudeness and all its attending evils? If not, then do not open your mouth to utter complaints against the most unfaithful of hireling teachers. Parents should provide suitable text books at the first of the term. It is of no use whatever to send a child to school, unless provided with books adapted to his capacity.

At the close of the summer schools, a large part of the school rooms were neatly trimmed with wreaths and flowers, forming appropriate mottoes, evincing the good taste of teacher and scholars, while the examinations were creditable and afforded an entertainment agreeable to a few parents and friends who were wise enough, to be present.

NO. 1. CENTRE DISTRICT.

Raymond Hoyt, Prudential Committee.

Summer Term: Miss N. A. Butman, Teacher. Miss B. is an excellent and efficient teacher; good order and prompt recitations contributed to the decided improvement of the school.

Winter Term: taught by Miss L. J. Andrews, with her usual good success. A part of the scholars were absent at the examination. This ought not to be thus, and for which the parents are responsible. *Every scholar* should be present on that day. Of those present the exercises were very good; those in reading and declamations deserve especial notice.

NO. 2. THE WEST DISTRICT.

Prudential Committee, J. W. Sawyer.

Both terms were taught by Miss Ellen M. Eaton, a very successful teacher. As your Committee did not visit the winter term but once, yet from a knowledge of Miss E's success during the summer, and from the report of this term, the inference is, that no terms of school in this district have been more profitable than have the past two of Miss Eaton's.

No. 4. POND DISTRICT.

S. Dana Smith, Prudential Committee.

Fall Term : Miss L. J. Andrews, teacher. At the close I found only one half of the scholars present. A thorough examination of the classes present, showed that their instruction had been all that was desired. To say that this school was a success is not enough. It was more. The first and second classes in reading, being furnished with new readers, made improvement that could hardly be excelled.

No. 5. COLBY DISTRICT.

Prescott Colby, Prudential Committee.

Summer Term : Teacher, Miss H. F. Collins. A small school, an excellent teacher, good order and good improvement ; a success.

Winter Term : Taught by Miss N. M. Colby. Too many classes for the number of scholars. Fair progress was made, yet the proficiency would have been greater had the teacher been more energetic. In this many teachers fail, that otherwise would be successful.

No. 6. PLAINS DISTRICT.

Jonathan Peaslee, Prudential Committee.

Summer Term : Miss L. F. Brown, Teacher. School well managed, scholars interested in their studies, and made commendable improvement. Had the scholars been furnished with better textbooks, greater would have been the progress this term.

Winter Term : Mr. Moses Martin, Teacher ; wages 50 cents per day and "*board round*." A good school ; an exception to the general rule that a "cheap teacher will keep a poor school." The examination was alike creditable to the teacher and scholars, and would compare favorably with any of the schools in town. New books awakened a new interest.

Term too long without a vacation ; yet in session at the writing of this report. With more experience, Mr. Martin (this being his first) will make a successful teacher.

No. 7. ANDREWS' DISTRICT.

Prudential Committee, H. C. Brockway.

Summer Term : Miss N. R. Brockway, Teacher. A small school of five young scholars, which appeared well. Circumstances prevented me from an examination at the close. Report of the school good.

Teacher of the Winter Term, Miss H. M. Hoyt. As in the Summer Term, the school appeared well. Examination good, although the first of Misses B. and H.'s experience in teaching. Your committee believes that they will be successful as teachers.

NO. 8. MELVIN'S MILLS DISTRICT.

Union with No. 17, Warner.

G. W. Bagley, Warner, Edward Cressey, Bradford, Prudential Committee.

Miss L. A. Cressey, Teacher.

Summer Term: In a *very poor* house.

Winter Term: In a better than in either Bradford or Warner. Of their new house this district may well feel proud. The Summer Term was quite successful. A commendable degree of interest was exhibited by the scholars in their efforts to keep the old house neat and make it pleasant. The progress was good as could be expected with the poor text books, &c.

Winter Term: New associations, new books, and a new interest awakened. The old adage, that "a new broom sweeps clean," is verified. Too much praise cannot be awarded to Miss C. for the very able manner in which she has conducted both terms of this school, or to the scholars for the neat care they have taken of their school room.

NO. 10. SPRING'S DISTRICT.

Henry Bixby, Prudential Committee.

A Summer Term of 2 1-2 weeks, and Winter Term taught by Miss M. C. Bixby, whose arduous labors were attended by a good degree of success. I am of the opinion that the ability required to keep a first-rate school in that old house, will never be found. If any of the citizens or parents think otherwise, let them try it. As a whole, the school is suffering mentally, morally and physically for want of the stimulant afforded by a new and attractive school house.

NO. 11. JEWETT'S DISTRICT.

Prudential Committee: D. H. Hartshorn.

Winter Term: Miss M. A. Johnson, Teacher. Miss J. successfully conducted this term of school. In reading, as well as in other branches taught, this school has not been excelled by any in town. As a teacher, by her untiring labor she contributed to the good pro-

gress and order of this school. The class in grammar was very interesting.

NO. 12. HOYT'S DISTRICT.

Union with No. 6, in Newbury.

A. S. Eaton, Newbury, Prudential Committee.

Summer Term: Miss A. E. Burpee, Teacher. On the first visit to this school its general appearance was good. Yet not having notice in time of its close I did not attend the examination. Here it should be remarked that as there is only one, "whose duty it is to visit all of the schools and report thereon," and two or more closing on the same day, the S. S. Committee should be notified a week at least, in advance of the close. From report it is presumed that Miss B. was a successful teacher.

Winter Term: Miss N. Giles commenced as Teacher. She was industrious, but in a bad school to govern. The parents are the cause of the trouble for which this district has become noted; more so than the scholars. As are the parents, so is the school. The parable of the "man who went down from Jerusalem to Jericho," would apply to teachers in this district, who should bring the good Samaritan with them. The reputation of this district reminds one of

"The conflict of the good with evil,
A strife between the soul and devil,"

and if he gets the advantage, don't complain if he wins the victory. One scholar was expelled for bad conduct. Better progress made than was expected.

Miss Giles, through some unfortunate circumstances known to the people of this district, left the school, and Mrs. A. S. Eaton ably conducted the remainder of the term.

The first requisite, good order in the school room, was quickly noticed in most of the schools, without which no teacher can be successful. The thoroughness in instruction by the teachers, the quiet deportment in and outside of the school room, the inevitable result by obtaining good teachers, IS GOOD SCHOOLS.

Here I leave my report in your hands. Let each one ask himself the question, Have I done by word, act, or deed, anything to advance the interests of our common schools?

Respectfully,

H. C. FELCH, *S. S. Committee.*

Bradford, N. H.

REPORT OF SUPERINTENDING COMMITTEE OF UNION DISTRICT NO. 1.

Prudential Committee: D. Moody Morse, A. Seavey, A. Marshall.

The Summer Term of the Primary Department was taught by Miss Lucy A. Andrews, a good faithful teacher. The school was well conducted, quiet and orderly, with a good degree of progress in the studies.

The Summer Term of the Grammar Department was under the direction of Miss Augusta Eaton, who fully maintains her well earned reputation in giving us, in every respect, a good school.

The Winter Term of the Primary Department was taught by Miss Eaton, who succeeded in gaining the attention and interesting her scholars in their studies, to such a degree that they prefer to be in the school room than any where else.

The Winter Term of the Grammar Department was conducted by Mr. Nathaniel C. Todd, with marked ability and success.

The schools this year have been in as good condition as circumstances will admit. They are too crowded—not with scholars, but with studies, for the teachers to do any sort of justice to themselves or their recitations. There ought to be another department at least, for the Winter Term, to take some of the branches from these and add some for which there is no time now.

There needs to be a set of outline maps, as well as other apparatus for the school rooms.

C. R. NICHOLS, }
H. C. FELCH, } *Supt. School Com.*

Feb.	1.	1-2 day making county pauper bills,	.75
	15.	1 day at Poor Farm taking inventory,	1.50
	19.	3 days at office,	4.50
	27.	5 days settling accounts and making re- port,	7.50
	27.	Expenses to Warner to get bank tax,	.80
			<hr/>
			\$58.35

A Memorandum showing the standing of the Poor Farm for the year ending March 1, 1869.

We find the Farm chargeable as follows:

To farm as per invoice of 1868,	\$2,000.00
personal property of 1868,	1,769.54
cash paid George Jones, for use of pasture,	50.00
cash paid agent as part of salary,	125.00
cash now due agent,	75.00
<hr/>	
	\$4,019.54

We find the Farm entitled to the following credits:

By farm as per invoice of 1869,	\$2,000.00
personal property as per invoice of 1869.	1,708.35
cash paid into town treasury by J. W. Marshall, agent of Poor Farm,	432.27
cash paid into treasury by James Emery, last year's agent,	25.52
keeping transient paupers,	3.00
due the farm for breaking roads,	2.40
<hr/>	
	\$4,171.54

From the above sum of \$4,171.54 which we find the farm entitled to as a credit, deduct the sum of \$4,019.54 which we find the farm chargeable, and we find the sum of \$152.00 in favor of the farm. The number of paupers supported on the farm the present year is two and one-half.

It also appears from the books of the selectmen that there has been paid for the support of paupers off of the farm the past year, the sum of \$181.21 as follows :

Lois Messer,	\$32.06
William Warde,	15.50
Joseph P. Stiles,	30.00
George Sargent,	14.00
Polly Burchstead and family,	59.65
Mrs. Bonner,	30.00
	<hr/>
	\$181.21

All of which is respectfully submitted,

JOSHUA EATON,	} <i>Selectmen</i>
H. K. MARTIN,	
R. F. WHEELER,	

of
Bradford.

REPORT

OF THE

SUPERINTENDING SCHOOL COMMITTEE.

In submitting my report of the common schools in this town, I am happy to be able to bear favorable testimony to the general efficiency of the teachers, and the excellency of the schools. However great the deficiency may still be, there are many evidences of befitting qualifications in the teachers, and of improvement in the schools, which place them far in advance of former years. Teachers and scholars seemed to have mutual confidence in each other, and to have worked faithfully together to accomplish the great end of common schools in enlarging the capacity of the mind and fitting it for the high duties and destiny of life.

For the better improvement of our schools, your committee would suggest that the parents take greater interest in the education of their children. *See to it that your own children behave well while at school.* The order of a school depends more upon the parents than most people seem to think. The old rule among many families, "Get whipped at school, get whipped at home," was not so bad after all. It was right in spirit, at least, for if children know that their delinquencies at school will be sternly rebuked at home, they will be far less disposed to make trouble. It is the height of folly to reverse this rule as many do, and listen to every little grief of the child, and side with him in every trifling complaint against the teacher. Hear all sides first; and even then, it is better to suffer some wrong than have the child know that you blame the teacher. More trouble in schools arise from a disregard of these plain considerations than from any other cause.

Provide your children with all needed books! Without them, your children will make but little improvement. *Have your children study at home, and help them!* In difference of practice with parents in this respect, lies, in most cases, the great difference of scholarship among children. Not that the child should bend over his books all the time at home; but that he should be surrounded by them. He should see them, feel

their influence, *be drawn to them*, by living in contact with them. Many a parent makes a fatal mistake here. He sends his children to school, pays liberally for the select schools or academy, and takes all possible pains in all these respects, but provides not a book, nor paper, nor map, for their instruction at home. Such are almost always complaining of their dull children. It could not be otherwise.

Home is where the child lives, and where his mind and habits of thought are formed, and if he finds nothing there to awake him to study, nothing to kindle his curiosity or attract him towards books and papers, he certainly will not be very likely to become fond of study, or to give much aptitude at learning.

Parents should take pains to visit their schools to ascertain their discipline or probable efficiency. Until a new policy is inaugurated in this particular, our schools will never reach that proud eminence which is their manifest destiny. And if parents, by not attending to this matter, shall permit their children to be subjected to bad influences, or be incorrectly educated at school, they may find, years hence, as they gaze upon a wayward and ruined child, made so by their neglect, that these friendly hints may come up as swift witnesses against them, and help to fill up their cup of sorrow.

Our common schools, while they are the nation's security and the patriot's hope, are, nevertheless, the property of every man in town, and the vastness of their influence requires our most earnest solicitude and fostering care. Your committee most earnestly appeals to every citizen to do all he can to educate and improve our common schools. Let us cherish them as the most important of all our institutions, as most deserving the patronage and support of the whole community. Let us remember that the influences which cluster around our children in the school-room, never cease their operations, that they last our children through life, into the distance of eternity. If this be true, what great responsibilities rest with you, and how faithfully ought they to be performed.

DISTRICT No. 1.

Summer Term—Taught by Miss N. A. Butman. An excellent teacher, well qualified to teach thoroughly the elementary branches. Good progress. Satisfaction given.

Winter Term—Mr. H. F. Brown, teacher. This was Mr. B.'s first school, and he gave very good satisfaction. Though he may have failed in some points, yet, with more experience, will make one of our first teachers. Let the scholars in this district cultivate habits of study.

DISTRICT No. 2

Summer Term—Teacher, Miss E. M. Eaton. An efficient

teacher. The school made good progress, and appeared to have been well conducted in every respect.

Winter Term—Miss N. A. Butman, teacher. Miss B. conducted this school with her usual good success. Order and improvement good. In this school there are some very good scholars.

DISTRICT No. 4.

Summer Term—Taught by Miss H. M. Hoyt. This school made a good degree of progress; but, with a little more thoroughness in some branches taught, the improvement would have been better.

Winter Term—Miss M. E. Howlett, teacher. This term was very successful, and Miss H. has proved herself to be a thorough and industrious teacher. Improvement and order good.

DISTRICT No. 5.

Fall Term—Teacher, Miss H. M. Hoyt, who had an earnest desire to be useful, and succeeded in making improvement in this school. Order good.

DISTRICT No. 6.

Summer Term—Taught by Miss L. L. Brown. A pleasant and interesting school. This school made good improvement under the instruction of Miss B., who gave very good satisfaction.

Winter Term—Mr. Moses Martin, teacher. A teacher of competent education and superior qualifications for a successful teacher. The progress made in the various branches was commendable to both teacher and pupils.

DISTRICT No. 7.

Summer Term—The first nine weeks of this term were taught by Miss Kate J. Presby, with very good success. With more experience, Miss P. will make one of our best teachers.

The term was completed by Miss Nellie R. Brockway, a teacher of much merit.

Winter Term—Miss N. R. Brockway, teacher. This term is not yet closed; but, judging from the qualifications of the teacher and the observations made at my visit, I have no doubt that the term will be profitable, and the progress compare favorably with the other schools in town.

DISTRICT No. 8—UNION WITH WARNER.

Summer Term—Miss P. E. Jones, teacher. The method of instruction and discipline was, we believe, just right, and the progress made was real and substantial. The scholars of this school deserve great credit, and the teacher high rank.

Winter Term—This school was under the instruction of Mr. James M. Presby, an experienced and faithful teacher, whose moral example was salutary. Mr. P. was an earnest and laborious worker, and his method of instruction was thorough, systematic and practical. The school was a profitable one.

DISTRICT No. 10.

Fall Term—Miss L. F. Gerry, teacher. Miss G. labored with great energy for the improvement of this school, and succeeded well. Order good.

DISTRICT No. 11.

Fall Term—Teacher, Miss Ellen M. Eaton. Miss E. maintained her reputation as being one of our most successful teachers. The ambition and talent of many of the scholars in this school are of a high order, and the progress was good and rapid.

DISTRICT No. 12—UNION WITH NEWBURY.

Summer Term—This term was taught by Mrs. E. C. Eaton. Your committee considers this as one of the best schools of the past year. The teacher was eminently successful in every particular necessary to a perfect school, and the progress made was correspondingly good. The scholars obedient, desirous to do well, and merit the approbation of their teacher and friends.

Winter Term—Mr. John W. Fisher, teacher. The progress made was very good, and no failure was noticed of sufficient importance to merit a remark. As in the Summer term, the scholars were attentive to their studies. The parents in this district have manifested a desire for the improvement of their schools, and the advancement of their children seldom excelled. For the benefit of all concerned, your committee will add a few words from the remarks of the teacher:

The teacher would say that after reading the report of the last Winter term, he was agreeably disappointed in finding a pleasant school, kind and hospitable parents, and scholars respectful, courteous and eager to learn.

With these frank statements and suggestions for the benefit of the schools of this town, I close this, my report, desiring that the same respect and ready co-operation, which I have received from many friends, will be given to my successor.

All of which is respectfully submitted.

S. D. SMITH, *Superintending Committee.*

BRADFORD, March 1, 1869.
